

Required Documentation for Home Education Program

Due Annually by August 1 or ASAP when starting or transferring to a Home Education Program

- 1) A child's parent or guardian must file a notarized affidavit, along with education objectives and required immunization and health records with supporting documents, to: Solanco School District, Assistant Superintendent's Office, Attn: Hailey Denlinger, 121 S. Hess Street, Quarryville, PA 17566. These documents can also be emailed or placed in the drop box at the side entrance of the district office.

You can contact Hailey by phone at 717-786-5609, or via email at hailey_denlinger@solancosd.org.

If your child(ren) have never been enrolled at Solanco, please also provide your student's date of birth and intended grade level on your objectives. You of course don't have to teach by grade level, but the student cannot be added to the district's student information system without a date of birth and grade level.

- 2) In addition to the notarized affidavit, the following attachments must be included:
 - Educational objectives for each subject for each student.
 - Evidence of immunization (records or a letter from physician) or religious/medical exemption.
 - Health/medical services records or a letter from physician or religious exemption (upon initial entrance, grades 6 and 11).
 - Dental services or religious exemption (upon initial entrance, grades 3 and 7).
 - Hearing exam records or a letter from physician or religious exemption (upon initial entrance, grades 2, 3, 7, and 11).
 - Evidence that the supervisor possesses a high school diploma or equivalent (must be submitted only when initially enrolling into the Home Education Program).
- 3) It is required that homeschooled children with a disability have the proposed education program reviewed and approved by a clinical psychologist or a certified special education teacher prior to submitting the objectives. This approval must accompany the affidavit and objectives.

New students living in Solanco School District should be registered prior to August 31.

Due Annually by June 30

Evaluation of education program from licensed or certified evaluator submitted to the school district. A state standardized test is required for grades 3, 5, and 8. If you would like your child to take the same standardized test administered to students who attend Solanco schools, contact the guidance office at the school your child would attend, on or before February 1st.
